To M. N. Krishna Rao, Esq., B.A.,
Secretary to the Government of Mysore,
Financial *Department.*

SIR,

I have the honour to forward herewith the Capital and Revenue Accounts for July 1920. The variations in the figures are explained in the remarks column of the statement Figures for (4.) Other Industrial Works under Class V Industrial Works are not entered, as under G.O. No.Fl.428-30/G.F.227-18-90 the receipts and charges relating to these are booked under advance heads and the profits of each concern are brought out in the audited balance sheets which are adjusted to Revenue half yearly. Similarly the figures under Class VI Miscellaneous are not shown in the statement as Government have ordered the submission of the accounts relating to the Experimental farms once a year instead of monthly in their letter o.Fl.3804/G.F.88-19-2 dated the 23rd December 1919 to the Director of Agriculture. These two items will therefore be omitted in future returns.

I have the honour to be,
Sir,
Your most obedient servant,
T. Satyaraj Chetty
Comptroller.

Subject matter.

Letter No.56 dated 11th February 1921 from the Executive Engineer, Water Supply Division, to the Comptroller, Mysore Government, Bangalore.

With reference to your No.WAD.MIs.498 dated 7th February 1921, calling for the reasons for the heavy working expenses during August 1920 on the Annual Maintenance of Kolar Gold Fields Water Works, I have the honor to state that out of the sum of Rs.63,004/- debited during the month, Rs.49,308/- represent the value of articles adjusted by credit to stock to be used on work during the year. It may kindly be noted that the outlay on the work does not represent the value of articles actually consumed but the value of articles purchased for subsequent use. The value of all the articles that remain unused on the work during the year will be written back to stock again at the end of the year by credit to the Annual Maintenance estimate

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS

THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

R e a d:-

Capital and Revenue Accounts of Kolar Gold Fields Water Works for the year 1919-20 submitted by the Comptroller under his endorsement No.419/W.A.D.(Mis) dated 4th January 1921 with a memo explaining the chief features of the accounts.

No.P. W.1317-9/M.7251-3 Dated Bangalore, 17th February 1921.

R e c o r d e d.

2. The total capital outlay on the scheme to the end of the year 1919-20 was Rs 17,16,660 including the indirect charges of --- Rs 83,123 debitable to the capital account.

3. The gross revenue for the same period was Rs 36,93,556 while the working expenses (including depreciation and indirect --- charges) aggregated Rs 23,16,098. The net result was a surplus of Rs 13,77,458. If interest at 4 per cent which amounts to Rs 10,13,681 be deducted, there would be a surplus profit of Rs 3,63,777.

4. The transactions of the year 1919-20 itself resulted in a deficit of 51,723. There have been deficits from the year 1916-17 owing to the reduction of the water rate charged to the Mining ----- Companies to 8 annas per 1000 gallons, but the yearly deficit has been fluctuating according to the varying price of materials which augments the working expenses.

5. In order to place the scheme on a proper commercial basis, it is necessary that all water drawn therefrom should be adequately charged for, whether supplied to Government Departments or local --- bodies or private consumers. Necessary orders have been issued in G.O.No.P.W.1131-94/M.6416-79 dated 21th January 1921 and Messrs.John Taylor & Sons addressed, as regards the increased rate to be paid by

GRW

(27

by the Mining Companies.

For Secretary to Government,
Public Works Department.

To

The Comptroller of Mysore.

The Superintending Engineer, Sanitary Circle.

The Deputy Commissioner, Kolar District.

No. P. W. 1131-94—M. 6416-79, DATED 24TH JANUARY 1921.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

Order No. P. W. 1131-94—M- 6416-79. dated 24th January 1921.

The Bethamangala Water-Supply Scheme has been working at a loss during the last few years, chiefly owing to the high price paid for materials since the days of the great war.

2. In order to make the project pay at least the bare interest return on the investment, Messrs. John Taylor & Sons' Committee have been requested to agree to fresh terms as regards the rate to be paid for the water consumed by the Mining Companies. The matter is under correspondence.

3. With a view to work the project on a commercial basis, the Government of His Highness the Maharaja are pleased to direct as follows:—

(1) For the water supplied to Robertsonpet Town, the Kolar Gold Fields Sanitary Board now pay only the actual out-of-pocket expenses of Government, as ordered in G. O. No. 8979-81—L. B. 87-08-10, dated 16th March 1909. The Board should, in future, pay at 9½ annas per 1,000 gallons until further orders.

(2) A free allowance of 120 gallons per rupee of rental value is now allowed to Government Residential Buildings, *vide* P. W. No. 156-8—1004-6, dated 25th January 1917. An allowance of 30,000 gallons is also allowed to the Geological buildings. There are water taps in the compounds of Public Offices and Institutions. Water is suppplied to the circuit House at Rebertsonpet direct from the main, though not from the Town Supply Tank. The free allowance in all these cases should be stopped altogether and the tenants or the Government Departments concerned, as the case may be, should be made to pay for all the water consumed at 15 annas per 1,000 gallons. If the Government Officers occupying the buildings require relief, the respective Government Departments should bear the charges to the extent of the free allowance calculated at 120 gallons per rupee of rental value, the tenants paying only for the excess consumption.

4. Water will, however, be supplied free to three Public fountains in Champion Reefs which may be allowed to run only during certain periods of the year.

5. This order will have effect from the 1st January 1921.

S. CADAMBI,
Secy. to Govt, Public Works Department.

To—The Superintending Engineer, Sanitary Circle.
The President of the Sanitary Board, Kolar Gold Fields.
The Comptroller to Government.
The Secretery to Government, Revenue Department.
The Deputy Commissioner, Kolar District.
The Heads of Departments.

Exd.—C. R.

Government of His Highness the Maharaja of Mysore.

PUBLIC WORKS DEPARTMENT.

G. O. No. P. W. 1131-94 — M. 6416
dated 24th January 1921.

Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE DEPARTMENTS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. 746-95—G. F. 232-17-1, dated 5th August 1918.

The question of maintaining capital and revenue accounts for all productive works in proper forms has been under the consideration of Government for some time. To systematize the preparation of such accounts for all classes of works they are pleased to issue the following instructions:

2. The classification of all works financed by Government for which capital and revenue accounts are required to be maintained, will be as follows:—

I. Railways.

II. Irrigation works.

(*a*) Krishnarajasagara and allied wor

(*b*) Vanivilasa Sagara.

(*c*) Other irrigation works.

III. Public Works other than irrigation.

IV. Hydro-Electric Power Works

V. Industrial Works

(*a*) Iron Works.

(*b*) Sandal Oil Factories.

(*c*) Other Industrial Works.

VI. Miscellaneous.

3. As regards classes I to IV, the rules and procedure contained in the Government of India Public Works and Railway Codes are at present being generally followed as far as they are applicable. The capital and revenue accounts of the works included in these classes are maintained at present by the Comptroller annually in all cases and half-yearly in the case of Railways. These accounts are published in separate pamphlets. These accounts should continue to be prepared and submitted as heretofore. The question whether the capital and revenue accounts for the several lines of Railways should henceforth be annual is at present under consideration and until revised orders are issued these accounts should continue to be half-yearly. Also a dozen bound volumes containing all the accounts properly arranged and the annual abstract account referred to in para 5 *infra* with a table of contents should be submitted to Government by the 15th of December following the end of the year to which the accounts relate.

4. As regards the works included in the groups V and VI, detailed capital and revenue accounts should be separately prepared only for the Iron works and Sandal Oil Factories at Bangalore and at Mysore. These accounts should be prepared in forms as shown below:—

(*a*) General account in Form B.

(*b*) Details of capital outlay, Form C.

(*c*) Revenue account showing details of gross receipts and working expenses including depreciation, Form D.

(*d*) Statement showing at a glance the financial result of the concern from the beginning, Form E.

For convenience these accounts also will be bound with the detailed accounts of the works belonging to classes I to IV in the volume referred to in para 3 above.

5. Besides the detailed accounts referred to in paragraphs 3 and 4 Government desire that two new abstract accounts one monthly and the other annual should be prepared and submitted to them. These accounts should be prepared in the forms and in the manner indicated in the following paragraphs.

6. The list of works the accounts of which should be included in the abstract monthly and annual accounts is given in the appendix to this order. Additions to this list will be made from time to time as may be necessary and the complete list scrutinized and approved by Government in the month of June before the commencement of the official year.

7. The abstract monthly account will be in Form A attached to this order and should be submitted not later than the 15th of the second month following that to which it appertains. In this account the separate works included in the appendix under II (*c*) Other Irrigation Works, "V (*c*) Other Industrial works" and "VI Miscellaneous" will not be shown separately but only the total capital and revenue transaction under each class of works will be entered.

8. The abstract annual account will be prepared in Form B attached and should be submitted before the end of November following the year. It will be in greater detail than the monthly abstract. The particulars of each individual work included under the head "II. (*c*) Other Irrigation Works", "V (*c*) Other Industrial Works" and "VI Miscellaneous" will be shown separately.

9. Both in the monthly and in the annual accounts a separate page or set of pages or portion of a page should be devoted to each class of works like I. Railway, II. Irrigation, etc., and the total for all works in the class struck at the end.

10. Some difficulty may be felt in the beginning in bringing the accounts relating to so many different classes of works under the few common heads given in the monthly and annual abstract accounts but such a course is absolutely necessary for a correct understanding of the capital and revenue transactions of the State as a whole. Important points on which the Comptroller may feel doubt as to the proper course to adopt may be referred to Government for orders. When any ambiguity is likely to arise in respect of the figure entered in any column under any work or class of works, the nature of the work should be clearly explained in a foot-note.

11. In the case of works for which detailed annual capital and revenue accounts are separately prepared and submitted to Government (*vide* paras 3 and 4 *supra*), reference will be given in the abstract annual Account Form B to the pages of the separate accounts wherein details of the figures shown in the abstract account are contained.

12. The Comptroller is requested to avoid duplication of work as far as possible and to submit to Government any changes in the form of the separate capital and revenue or finance accounts of works of the classes I to IV which may be necessary in consequence of the passing of this order.

	Abbur anicut and channels.		

(1) All works already in existence, the exact capital outlay on which is ascertainable and amounts to Rs. 25,000 or more.

(2) All works already in existence, the exact capital outlay on which is ascertainable and amounts to less than Rs. 25,000, but which yield an annual revenue of Rs. 1,000 or more in each case.

Note.—Extensions of works of the above two kinds should be treated as additions to the works proper and the results of the entire works taken into account as a whole.

(3) All new works constructed hereafter at a cost of Rs. 25,000 or more irrespective of the annual revenue which each work may yield.

(4) All new works constructed hereafter whatever the capital cost may be which yield an annual revenue of Rs. 1,000 or more.

(5) Extensions costing Rs. 25,000 or more of old works, for which particulars of capital outlay are not ascertainable. Such extensions may be treated as new works, taking for the revenue receipts of such works the increase over the previous income and for revenue expenditure, the charges relating to the extension works alone.

(6) Such of the extensions of old works not falling under (1) and (2) as cost less than Rs. 25,000 but yield an annual revenue of Rs. 1,000 or more.
